

TECHNICAL DATA SHEET

ADDAGE PUMPING AID

PRODUCT DESCRIPTION:

This product specially designed for the easy priming of concrete pump & boom Pressure. It is ready to use slurry pouch, used as concrete pump primer or for lubrication of concrete pump pipeline. It is versatile dry powdered Concrete Pumping Aid. Ready to use water soluble powder. Its 100% replacement for cement of grout slurries. Very low cast material compare to cement or primer slurries. Compatible with all concrete material & not having calcium chloride. Contains no harmful substances.

PROPERTIES

Readily Water Soluble Dry Powder. Enhance the Pumpability.

Easy to use for pump priming.

Make easy flow and reduce pump pressure.

APPLICATION

It increases the pumpability of concrete.

Improves the cohesiveness of your mix, allowing it to flow evenly through the line.

TECHNICAL SPECIFICATION

Appearance	White Crystalline powder
Odor	Odorless
pH	8-10
Solubility	Soluble in cold/hot water

ADVANTAGES

No stop and block in pipe line

Minimize wear and abrasion of equipment's.

No need of cement or any priming material.

Reduce the horsepower requirement for pumping
Helps To Reduce Cost Of Priming.
Environmentally Safe, cost Effective. Less dosages required

DOSAGE

Use one pouch of 200 g pumping aid in 25 liter of water.

METHOD OF APPLICATION

200 g of one bag of pumping aid should be mixed with 25 liters of water, stirred thoroughly for one minute, and allowed to stand for five minutes before being poured into a hopper or pump prime. To prime 100 feet length. of 5 inch pump line.

STORAGE:

ADDAGE Pumping aid should be stored in a dry and cool place.

SHELF LIFE

Best of before 24-Month from the date of manufacturing in unopened condition.

PACKING:

ADDAGE Pumping aid is available in 200 g Pouch.
