

## TECHNICAL DATA SHEET

### ADDAGE- DEFOAMER POWDER

#### PRODUCT DESCRIPTION

**ADDAGE DEFOAMER POWDER** is a high-performance, powdered anti-foaming agent specially formulated to effectively control and eliminate foam in a wide range of industrial applications. It is designed for easy incorporation into dry mix systems and offers excellent foam suppression properties during both processing and application.

#### PROPERTIES

Free-flowing Powder

Breaks the foam

Preventing the regeneration of foam

Non-dusting powder is suitable for use in cementitious products, paints.

#### APPLICATION

**Dry Mix Mortars (tile adhesives, grouts, RMC, plasters)** -Reduces air entrainment, improves surface finish and mechanical strength.

**Concrete Admixtures** - Controls foam in admixture formulations and during mixing.

**Textile & Dyeing** -Controls foam during dyeing, sizing, and finishing operations

#### TECHNICAL SPECIFICATION

| Test         | Result                    |
|--------------|---------------------------|
| Appearance   | White to off white powder |
| Bulk density | 600 Kg/m <sup>3</sup>     |
| pH           | 7-8                       |
| Dispersible  | Water                     |

## **ADVANTAGES**

Efficient Foam Control  
Improved Product Quality  
Good Dispersibility  
Versatile Applications

## **DOSAGE**

We recommend dosages are 0.3 to 1.0 % of the total weight of mix.

## **STORAGE:**

It should be store in cool, dry area away from direct exposure to sunlight.

## **SHELF LIFE**

**ADDAGE DEFOAMER POWDER** store in original unopened package, it will remain its original performance for 1 year.

## **PACKING:**

**ADDAGE- DEFOAMER POWDER** is available in 25 kg bags.
